

SORS®

WHO ARE WE?

STOPARTS company has officially opened his doors in 2012 with the main activity of supplying spare parts for all types of heavy machinery and equipment to manufacturers and dealers in Turkey. Today we work in various fields in the wholesale and retail segments of the market and total more than 120 manufacturers. All these manufacturers with whom we cooperate make spare parts for special construction and agricultural machinery with very high quality and also export them to many countries in Europe, America and Asia.

OUR JOURNEY

STOPARTS has started his activities in Istanbul, Turkey in 2012 and started selling wholesale and retail spare parts for cars and trucks until 2014 when we introduced the sale of spare parts for special construction and agricultural machinery. In 2016, the company added to its activities, of course, the wholesale and retail supply of special equipment parts for road construction, and specialized in the sale of spare parts for heavy equipment. From 2019 the company STOPARTS under the SORS brand introduces a new range of products for the drilling industry and drilling equipment. Today, we produce more than 2500 spare parts for drilling equipment and hydro-drills on order of our customers

OUR SPHERE

we provide wholesale and retail spare parts for all types of heavy equipment and also supply spare parts and components for trucks, special equipment, construction, drilling and agricultural equipment.

We can manufacture spare parts according to customer requests and also have the possibility of sending to all countries in Europe, Africa, America, Asia and Australia.
